# Garfield Heights Dahlia Gardens

## DAHLIA IMPORTERS

*We rest on our laurels  
for 1955:*

### RUTHIE

The best all purpose dahlia ever introduced. We should have named this dahlia "Exception" for it is the exception to the rule that dahlias should be disbudded. RUTHIE must be grown without disbudding to have perfect stems!

Dawn pink — of purest color without overtones of any other color. Incurved cactus with perfect centers right up until frost. "B" size.

Rooted cuttings	\$2.50
Roots	7.50

### MARY KAY

It is a rare garden that has sufficient purples! This semi-cactus "B" size dahlia is of a beautiful shade of purple with white tips. The stems are strong and the foliage is insect-resistant.

Rooted cuttings	\$2.50
Roots	7.50

	R.C.	Roots
ADA N. A SC Purple. One of the largest of the newer ones	2.00

ZENITH B. St.C. Violet-purple. A consistent winner..	.60	

You are cordially invited to visit our garden during the growing season. We are just a short drive south of Route 17, south of Cleveland. If you have any Dahlia problems, we will be glad to discuss them with you.

We hope you will be the first in your area to grow some of the new and different imports. Nothing adds so much to your hobby as having the new and outstanding dahlias from other lands among your standard and late American varieties. Their price is not excessive and those dahlias we offer here have proven their worth during one of the worst growing seasons the midwest has ever experienced.

OUR TWENTY-TWO YEARS IN THE COMMERCIAL DAHLIA BUSINESS WARRANTS OUR SPEAKING WITH AUTHORITY. We assure you that we propagate only those varieties that did especially well for us during 1954. These are the varieties that have proven they can "take it". Our stock is all clean and varieties are guaranteed to be true to name. We will cheerfully replace any that are not.

We list rooted cuttings only for they perform as well as plants. Our cuttings are exceptionally well rooted. If received early, they should be potted up in light soil and carried through until planting time. If received after May 15th and your garden soil is ready, they may be planted directly in the ground **provided that a covering is placed over them to protect them from the sun for a few days.**

We will ship orders for rooted cuttings by parcel post, if you will enclose with your order 55c to cover the cost of special handling and/or special delivery.

Should you really desire plants, these are available on all varieties where the cuttings are listed, at half again the price of the rooted cuttings. In other words, where a rooted cutting is listed for \$1.00, the cost of the plant will be \$1.50.

Clumps are available on all varieties marked with an asterisk (\*) at double the root prices. However, **clumps are only available until March 1, 1955.** We cannot fill any orders for clumps after that date.

Residents of Ohio must include 3% sales tax with remittance.

Rooted cuttings are ready about April 1st. Plants after May 1st. All orders will be shipped express at purchaser's expense unless postage is forwarded with order.

While we believe we have sufficient stock of all varieties listed herein, there is always the possibility that we may be oversold on some varieties. Therefore we suggest that you place your order **early**. A small deposit will reserve your order and if you will specify a preferred shipping date, we guarantee to follow your instructions.

#### **JOIN YOUR LOCAL DAHLIA SOCIETY**

Participation in their programs, and active participation in your local Dahlia shows, will add great interest to your hobby.

#### **JOIN THE AMERICAN DAHLIA SOCIETY**

This great organization is now forty years old. The quarterly magazine, the **BULLETIN**, is filled with cultural articles of interest to experienced growers and amateurs alike, as well as reports of dahlia shows and new varieties across the country.

While we have talked of the Dahlia as a "hobby" flower — it is not necessarily so. Actually no garden is complete without it. Sizes range from the tiny pompons to the huge 14" size, and even larger. Every color is represented except blue. And the different formations are amazing.

REFERENCE: THE BANK OF CLEVELAND

## **GARFIELD HEIGHTS DAHLIA GARDENS**

6219 Turney Road

Garfield Heights 25, Ohio

The best of the best, because we list only Dahlias that have actually grown well under normal garden culture.
